### SUMMARY

Front End Engineer with 6 months of hands-on experience as an intern, specializing in designing and developing engaging web interfaces using React. With a strong foundation in front end technologies, including HTML, CSS, and JavaScript, I am passionate about creating intuitive and visually appealing user experiences. Collaborative and eager to learn, I thrive in dynamic team environments.

### PROFESSIONAL EXPERIENCE

#### Frontend Engineer Intern

ELO

2022 – 2022

Dhaka, Bangladesh

During my internship at ELO, a prominent software development firm, I contributed to the design and development of various website frontends using React. Working closely with the development team, I gained valuable experience in creating responsive and user-friendly interfaces.

#### Key Responsibilities:

- Collaborated with senior engineers and designers to create visually appealing and intuitive user interfaces using React.
- Implemented modern design principles and best practices to optimize website performance and usability.
- Assisted in the development of reusable UI components, enhancing code efficiency and maintainability.
